CAREER OBJECTIVE

Computer Science undergraduate with experience in Python, backend development and AI application development. Skilled in building intelligent applications using FastAPI, REST APIs and LLM-based systems. Experienced in integrating AI models, developing full-stack applications and designing scalable backend services. Interested in Voice AI, Conversational AI, LLM applications and AI-powered software systems.

EDUCATION

B.E. Computer Science and Engineering	Kongu Engineering College (2024–2028)	CGPA: 8.52
Higher Secondary (CS - Maths)	R.G. Matric Higher Secondary School (2023–2024)	93.16%
SSLC	R.G. Matric Higher Secondary School (2021–2022)	92.40%

TECHNICAL SKILLS

Languages	Python, Java, C, SQL, JavaScript
Backend	FastAPI, Node.js, Express.js, REST APIs
Frontend	React.js, Vite, HTML, CSS, Streamlit
Databases	MongoDB, PostgreSQL, MySQL
Tools	Git, GitHub, Postman, Vercel
Concepts	OOP, Data Structures, API Integration, Database Design

AREA OF INTEREST

LLM Applications, Machine Learning, Full Stack Development, Data Structures and Algorithms

EXPERIENCE

Machine Learning Intern, CubeAI Solutions June 2026 – Ongoing

- Exploring and developing AI applications using locally deployed CPU-based LLMs (Llama, Gemma) with Ollama for model execution, experimentation, and ML workflows.

PROJECTS

AI Conversational Assistant (In Progress)

Tech Stack: Node.js, React.js, LLM Integration

- Developing an AI-powered conversational assistant using LLM-based response generation.
- Built FastAPI backend services for handling user queries and AI interactions.
- Integrated AI models through APIs and connected frontend with backend services.
- Designed scalable architecture for future conversational and voice-based AI extensions.

CampusCare – Complaint Management System

GitHub

Tech Stack: React.js, Node.js, Express.js, MySQL

- Developed a complaint management platform with user and admin dashboards.
- Implemented REST APIs, CRUD operations and database integration.

Next Cart – E-Commerce Website

GitHub

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Built a full-stack e-commerce application with authentication.
- Developed backend APIs for user management and product operations.

CERTIFICATION

- NPTEL Human Computer Interaction (Elite)
- NPTEL Privacy and Security in Online Social Media
- React.js Certification - Non-Formal Course,[KEC]

LEADERSHIP

- Executive Member, CSE Association (2025–2026)
- Coordinator in organizing celebration events at school, CSE Association (2021–2022)

ACHIEVEMENTS

- Participated in SIH'25 internal hackathon
